

STOP THE MONSTER MAST

Did anyone consult you with the full information on its impact?

Pic: A similar mast in the borough; bulky cabinets not shown.

A developer wants to put a **mobile phone mast** near the Westway outside Ellenborough House Stark looking, It would be a massive **15 metres / 49 feet** high, totally out of place for the area.

There has **not** been proper consultation with all homes and schools within range. The application paperwork also withholds essential details.

Borough residents near masts are experiencing health problems like sleep disturbance and palpitations. Objections requested by Wednesday, 1st March, but please get yours in **now**.

HAVE YOUR SAY...

- You can email planning@lbhf.gov.uk - make sure you quote planning application. **2023/00169/TEL56**. Or you can comment online at <https://bit.ly/3Kgaj0N>

For more info, visit <https://www.techsceptics.org.uk/5g/ellenbh.htm>

Example objection points – please use your own words: I object to the proposed mast. It would be much too close to residential buildings and the play area.

It would not be good for our health, and especially **children**, whose bodies are still developing. To approve it would undermine the Council's statutory duty of preventing impairment to children's health and development.

It would cause anxiety and distract traffic. The developer has not properly considered its impact on local trees that provide environmental benefits.

- You can also post an objection to Zhirong Li, Planning Officer, Development Management. LB Hammersmith & Fulham, King Street, London W6 9JU.

We support the important crowd-funded legal action actionagainst5g.org holding the government to account over your well-being & safety – appeal still open for donations
